

Tim

This email is provided as confirmation that we are in receipt of your fax and mailed invoice balances dated 01/20/2004. You are advised that there is no dispute regarding your claims and we are in the process of finalising your invoice and the GST requirements etc. This should be finalised within the next week or so and you will be advised accordingly (plus you should get a cheque in the mail).

I would like to take this opportunity to thank yourself and your predecessors who have been involved in the establishment and the administration of the contract and in particular I would like to thank Rick Genovese for his effort on-site and we found his contribution very important and significant to the ultimate success of the Waterplay facility as part of the Park redevelopment. For your information, the official opening of the Park occurred on 'Australia Day', 26 January 2004, with the Chief Minister officiating - several government ministers were present and all politicians, patrons and children alike were thoroughly impressed with the Whitewater play equipment and in particular the 'tipping bucket'.

I have included a couple of pictures as attachments to give you an idea of the completed facility. Should you require further electronic pictures - please advise.

Best regards.

Lyle Campbell
