WHY RACING WATER SLIDES

Higher: thrill levels, hourly throughput,
and ride experience

These are but a few of the factors that are considered when choosing a new water slide. While each park will have its own unique requirements, the big goals will remain the same—drive gate, increase dwell time, generate positive guest reviews.

No other ride category delivers on these goals, plus all of a park's attraction perquisites better than WhiteWater's Racing Slides. Highly configurable, our Racing Slides offer a multitude of options for capacity, excitement, ride mix, space constraints, and that indefinable 'wow factor' that will become synonymous with your park, and your park alone.

HOW TO CHOOSE

Picking the right slide for your park

We could wax poetic about all the ways in which we love Racing Slides—they're great for repeat ridership, they can add a differentiated experience to your ride mix, and they make for great hero images on your web site—we thought instead to show you.

With an extensive portfolio of Racing Slides to choose from, we've created a handy table to simplify the selection process and help you narrow down your decision.

Parallel Pursuit

Parallel Pursuit is a competitive experience for older children and adults in an affordable and flexible slide package. Unique to WhiteWater, the Parallel Pursuit allows racers to see their rivals as they compete through twists and turns with low wall heights, creating a dynamic ride experience for guests.

- Easy to add to an existing tower or weave around existing structures.
- Flexible design includes two different corner types and multiple shapes to fit even the tightest footprints.
- Dynamic engineering simulations ensure rider containment for confident, full speed racing.

MAIN FEATURES:

Vehicle: Body and Mat

Estimated Capacity: up to 360 riders/hour

Standard Dispatch: 20/24 secs

Dueling Master Blaster

We've taken our fan favourite, Master Blaster, and heightened it, placing two lanes side-by-side for the ultimate racing experience. Jets take this experience to the next level by propelling the dueling inner tubes uphill.

- Features our Smart Blast technology to significantly cut energy costs.

MAIN FEATURES:

Vehicle: Inner Tube

Estimated Capacity: up to 720 riders/hour

Standard Dispatch: 20 secs

Head Rush Mat Ride

Our Head Rush Mat Ride combines the versatility of our AquaTube water slide with the unique sliding experience of riding headfirst.

- Add one or many AquaTubes with varying slide paths that end in their own run outs or all together in a tray.

MAIN FEATURES:

Vehicle: Mat

Estimated Capacity: 150 riders/lane

Standard Dispatch: 24 secs

Multi-Lane Mat Racer

A water park classic, Multi-Lane Mat Racer water slides take riders on a journey over a series of gut-wrenching bumps, accelerating riders towards the finish line. These slides are a free-for-all experience, making the rider focus more specifically on themselves and how they compare against the group.

- Great for accommodating groups of all sizes.
- Scalable from 2 to 8 lanes for maximum throughput.

MAIN FEATURES:

Vehicle: Mat

Estimated Capacity: 150 riders/lane

Standard Dispatch: 24 secs

Whizzard

On the Whizzard, riders are dispatched into enclosed high-speed AquaTubes that spiral alongside each other through multiple lanes of twists, turns, and 360-degree loops before a surprise drop into open lanes to reveal who is leading the pack.

- Can be finished in eye-catching fiberglass patterns, including a checkered flag run-out, to anchor your water park or reflect your park's theme.
- Operators can choose from 2 to 8 lanes for high throughput in a small space.

MAIN FEATURES:

Vehicle: Mat

Estimated Capacity: 150 riders/lane

Standard Dispatch: 24 secs

Mat Blaster

Part Multi-Lane Mat Racer, part water coaster, Mat Blaster is the world's first uphill mat racing water slide combining headfirst sliding with ascending blasts.

- A racing experience using the jets from our Master Blaster, guests are propelled uphill in a high-speed race unlike any other on the market.

MAIN FEATURES:

Vehicle: Mat

Estimated Capacity: 150 riders/lane

Standard Dispatch: 24 secs

Kids' Multi-Lane

Our Kids' Multi-Lane water slides give your tiniest visitors a chance to race side-by-side against their siblings and friends.

- Available in a multitude of fun colours and patterns, the Kids' Multi-Lane makes an eye-catching addition to a kids' area.
- Create confidence among younger visitors as they work their way into the larger racing slides.

Mini Multi-Lane

For the tiniest racers, our Mini Multi-Lane is available on our Interactive Water Play structures or as a stand alone slide.

- A nice, smooth ride, it makes a great introductory slide.

MAIN FEATURES (OF BOTH):

Vehicle: Body

Estimated Capacity: 240 riders/lane

Standard Dispatch: 15 secs

AFTER MARKET PARTS

Lights, timers, and checkered flag run-outs can all help to set the scene on a new Racing Slide or even to an existing water slide that you might want to give new life.

Stop/Go Lights

Adding stop/go lights to an existing slide enhances the safety of the ride and increases the guest experience. If a guest does not come out of the slide, then the light will not turn green, indicating to the operator to investigate and make sure that everything is okay. For the guest, the light creates suspense and adrenaline as they wait for the colour to change from red to green and signal that the race has begun!

Timers

Our new timing system drives repeat ridership, showing guests not only what place they finished the race in, but how quickly they went through the slide. The first digit shows your ranking, and the other four digits communicate your time in seconds, creating discussion among guests as they debate how to increase their place in the rankings and line up to ride again and beat their best time.

Customizable to match your park's look and feel, the timer display board can be in any color and run scrollable messages to welcome your guest to the park or showcase the temperature and date. The use of timers at the top of the slide allows for more consistency and fairness in the control of when people launch and tracking exactly when everyone has completed.

Checkered Flag Run-out

As with all races, it's not over until the checkered flag comes out—in this case, the entire shared run-out tray is a checkered flag pattern. Only available on mat racers.
