

Tailspin

High-banking family thrills

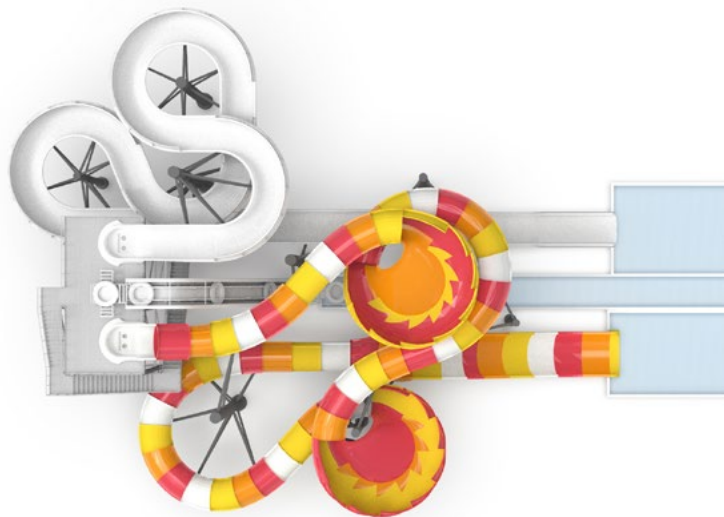

A high-thrill anchor attraction without the associated price tag, Tailspin has been designed to deliver an exciting ride experience, a strong visual presence, and effortless maintenance.

MAIN FEATURES:

Vehicle: 2-person inner tube and 3 and 4-person family raft

Estimated Capacity: up to 720 riders/hour

Audience: Family

WHITEWATER®
EST. 1980

★ GUESTS CAN SEE RIDERS

💰 REQUIRES MINIMAL FOOTPRINT

★ UP TO 25 KPH (16 MPH) DESCENT

📢 CREATE UNIQUE & EYE-CATCHING PATTERNS

📢 SAWTOOTH EDGE COMES STANDARD

★ 360-DEGREE DESCENDING ROTATION

📢 IDEAL PHOTO OPS

💰 BIG ANCHOR ATTRACTION WITHOUT THE BIG PRICE TAG

⚙️ NO JETS OR SPRAYERS TO MAINTAIN

FOR YOUR GUESTS

Combining the high-banking rotations of a bowl with the rapid descent of a flume, the open Tailspin gives riders a chance to see the journey that lays ahead as they're pinned high on the outside wall as they spiral downwards.

FOR YOUR MARKETING

Tailspin's unique split technology design creates fun opportunities to add eye-catching patterns and colour combinations exclusive to your park. Its saw-toothed edge makes it an imposing stand out, perfect for inclusion in posters, ads, souvenirs, and other marketing. Because Tailspin is open, guests waiting in line can see the excitement on the faces of the riders zooming through, which makes for ideal photo ops for social sharing.

FOR YOUR OPERATORS

A minimal maintenance water slide, Tailspin does not have any jets or sprayers to maintain or replace and can seamlessly fit into and accommodate other features in a fusion. Its robust design allows for extensive 'fusionability', as the Tailspin can enter and exit most other features that have a range of flow rates, speeds, and oscillations.

FOR YOUR BOTTOM LINE

Tailspin has been designed to deliver a thrilling ride experience and high impact presence while also being an affordable to buy and affordable to maintain water slide. Its unique look and ride experience will help to drive your gate.
