

WHITEWATER®

Entertain the Possibilities

Creating World-Class Aquatic Attractions in the Middle East & India

Who We Are: A Dedicated Industry Expert

WhiteWater began as a water park operator in 1980 and has maintained a focus on the guest experience and achieving operational effectiveness within everything we do. Serving our clients and being their partner in success is our top priority. We've established an organization with the depth and breadth to be just that. From master planning to installation, we've created a team of dedicated experts who ensure your name is synonymous with excellence.

We Bring Local Knowledge and Global Expertise

Based in Dubai, the Middle East & India team is well-positioned to provide the best partnership for investors interested in park development. We provide a local resource to a global network of experts in safety, design, and operations.

As market leaders, we put our success down to our attitude, in all our years we've never once forgotten why we're here – to help parks solve problems, create immersive experiences, and delight guests all over the world.

2020

Launched Endless Surf

2020

Installation of Vantage wait time signs at Aquaventure Waterpark

2021

Opening of Jungle Bay Waterpark at Le Meridien and Westin Mina Seyahi

Creating Iconic Destinations that Word

Building a water park or aquatic amenity can be a big investment. Our team has over 40 years of experience to guide you through the process and turn your vision into a reality that delivers a successful ROI.

STAGE 1

UNDERSTAND

Every project starts by developing a deep understanding. First we listen and probe deeply to understand the scope and situation to provide creative and practical solutions to every client's unique operational issues. From guest experience, park capacity, traffic flow to site challenges like topography, we help a park achieve what they need most.

STAGE 2

DESIGN

We take a collaborative approach to our innovative designs with an understanding that each experience must deliver the maximum value in variety, capacity, safety, and entertainment. Our expertise in overall park planning and design allows us to make recommendations on product selection to maximize capacity and operational efficiency while catering to a wide range of visitors.

STAGE 3

BUILD

We fuse imagination with precision-engineering and careful manufacturing to make rides you can depend on for decades. All our projects are managed, manufactured, and constructed with the industry's highest quality and safety standards at their forefront.

How WhiteWater Helps Reduce Water Consumption

Our slides are designed to use less water, from start tub to run-out lane

At WhiteWater, we design our slides with water and energy efficiency in mind. Each step of the water slide experience is considered, from beginning to end.

LOW WATER ENTRY TUBS

All of our vehicle water slides have an innovative entry tub design that requires less water at the start (while still allowing for self-dispatch) which means that the slide uses less water overall.

PROPRIETARY SIMULATIONS

As guests ride down one of our family raft rides, they will thrill in the higher climbs around turns on our pioneering risers, designed using proprietary simulation tools.

MINIMAL SPLASH RISERS

Different riser types are deployed to not only ensure maximum water splash-out containment, but to also provide guests with an even more exhilarating ride.

WAVE CATCHER RUN-OUT LANES

For vehicle slides that terminate in run-out lanes, we also provide patent-pending to patented lane terminations to contain wave splash over and provide guests with safe and convenient exit points.

A Focus on Sustainability

Water is a precious element. Because WhiteWater’s products use this vital resource, we recognize our responsibility that making fun with water must not risk our planet’s future. Our promise is to work across every area of our business to minimize carbon and waste impacts, empowering our people and investing to ensure our products are the benchmark for sustainability in our industry. Our commitment to social responsibility is to create a healthier planet, while working together with our clients to help achieve their sustainability goals, alongside ours.

The Broadest Product Portfolio in the Industry

WhiteWater has grown by acquiring product companies which complement our offerings to provide everything a water park needs, from Waves to Interactive Play and of course the best quality water slides in the world.

Splash Pad containing AquaSpray

RainFortress 4

Wave River

Tailspin + AquaSphere Fusion

Wave River (Wet'n Joy Waterpark - Lonavala, India)

WaveOz™ (Laguna Water Park - Dubai, UAE)

FlowBarrel Ten Double (Yas Waterworld - Abu Dhabi, UAE)

Wave Systems

Wave pools and rivers are the core of any water park, providing parks with solutions to expand their capacity and create areas where the whole family can play together or relax in the sunshine. Our wave systems are energy efficient using 80% less power to make astounding waves with low maintenance equipment and innovative control and monitoring options.

SURF

Surf

FLOWRIDER®

ENDLESS SURF

The world's leading surf simulator, FlowRider, gives guests of all ages the chance to experience the thrill of surfing and keep them coming back again and again while other guests will gather round to watch the fun. Our new product Endless Surf, creates perfect, powerful, and customizable waves for all abilities. Backed by decades of wave technology experience and a belief that everyone should discover the magic of surfing, Endless Surf is designed for operational ease, flexibility, high capacity, and above all else, safety.

River Raft Ride (MONTIONGATE™ Dubai - Dubai, UAE)

Super Flume (Everland - Yongin, South Korea)

RIDE

Water Rides

A full portfolio of solutions for every venue type that combines our focus on safety with our heritage of world class manufacturing.

- Log Flume
- Super Flume
- Shoot the Chute
- River Raft Ride
- Water Transportation System
- Spinning Rapids Ride
- Water Coaster

Water Rides come in a range of innovative splashes in flexible designs that make affordable anchor attractions for parks of any size, in any climate—an important factor for the MEI's extreme heat.

Water Transportation System (Zoo Miami - Miami, USA)

Spinning Rapids Ride (Desert Falls Water & Adventure Park - Abu Samra, Qatar)

The Future of Guest Experiences

Exceptional guest experiences are driven by superior operations. Superior operations are powered by Vantage.

By combining smart wearable technology with guest behaviour data, Vantage creates seamless and engaging experiences for your guests while giving your operations team real-time visitor and park info for faster decision-making and smarter planning.

Your guests get:

- Mobile app & kiosks
- Personalized experiences
- Frictionless interactions
- Redemption incentives
- Cashless enablement

Your venue gets:

- Real-time analytics
- Guest behaviour data
- Ancillary revenue streams
- Actionable insights
- Informed decision-making

Add Value by Adding an Aquatic Amenity

AquaPlay 750 (Four Seasons Bahrain)

Flow House (Kuwait City, Kuwait)

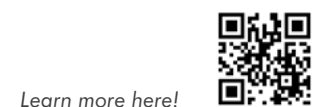

Pool Sider (Waldorf Astoria Ras Al Khaimah - Ras Al Khaimah, UAE)

Al Montazah Parks (Sharjah, UAE)

Hotels

Resorts need to look at ways to increase non-room revenue by providing a range of amenities that enhance the guest experience. Integrating indoor or outdoor water park attractions into your amenity allocation has shown to have a huge impact on the property's RevPAR.

Communities

WhiteWater has created big thrills for private clients. Increase facility footfall by utilizing key attractions to host events, grow food & beverage and introduce sponsorship. Grow revenue streams with the integration of dedicated leisure areas that encourage guests to stay longer and spend more.

Retail

Shopping centres are moving beyond the traditional retail offering by incorporating experiences into the mix. To help to drive ancillary revenue, venues are looking to mix aquatic entertainment with food and beverage offerings to encourage people to stay on-site late into the evening.

Surf House Helsinki (Helsinki, Finland)

Surf House Helsinki (Helsinki, Finland)

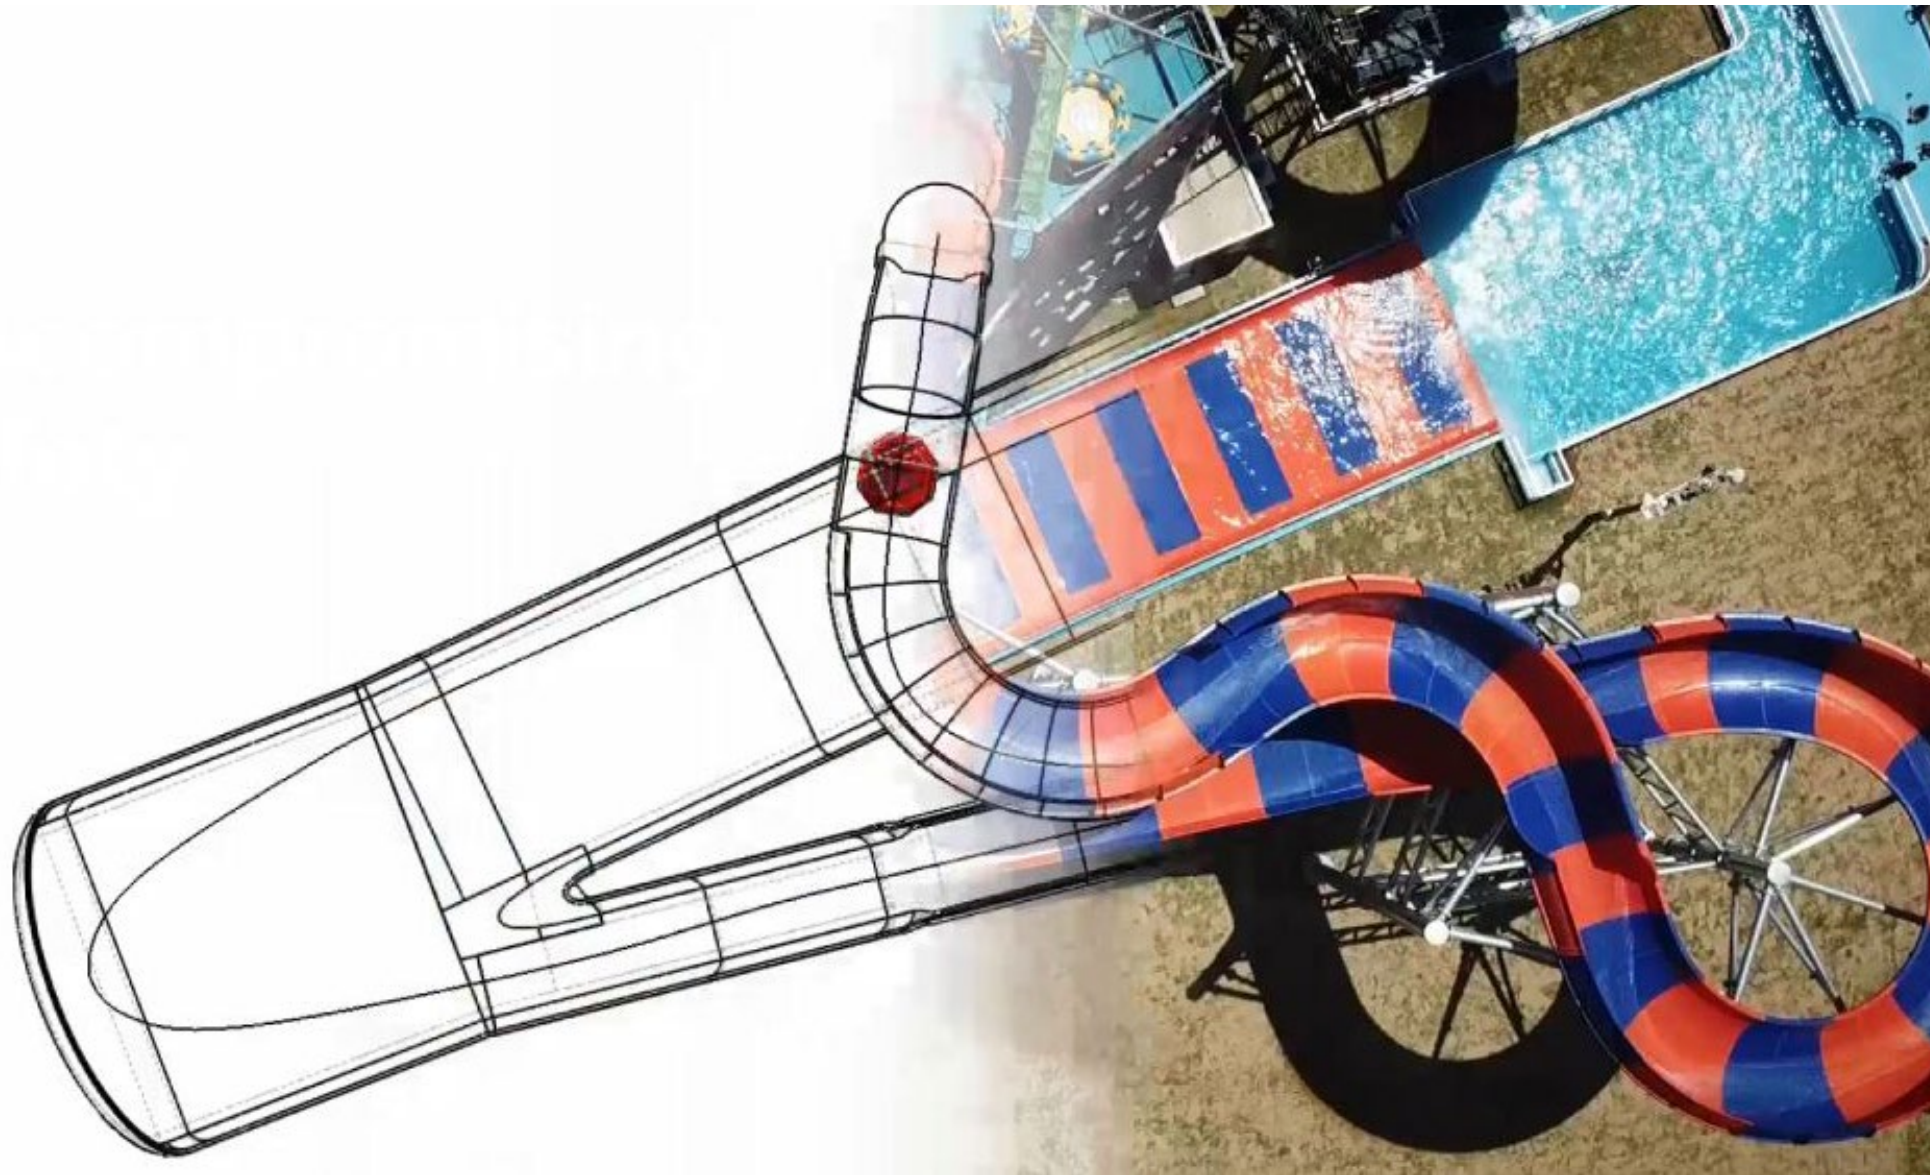

Surf Longe Ibiza (Ibiza, Spain)

Endless Surf

Mixed-Use Developments

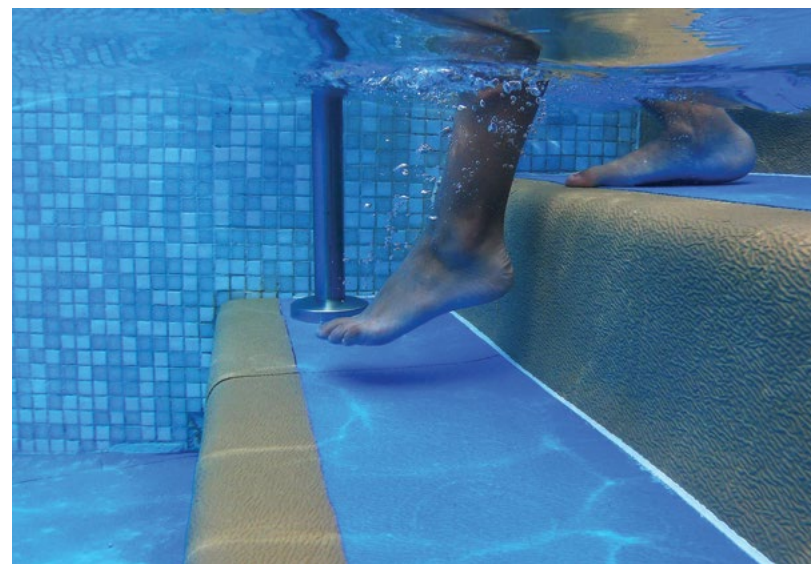

The surrounding amenities of a development will dictate what mix of customers will be present. Things like water slides and play structures can ensure the smaller kids stay happy, allowing the parents to relax.

Safety Simulations

Install Supervision

Life Floor

Uncompromising Safety

Safety is non-negotiable at WhiteWater. We are the only supplier who evaluates each design using carefully calibrated simulations followed by meticulous testing and fine-tuning to get the ride experience optimal and safety assured.

We demonstrate leadership in safety through our involvement with organizations such as ASTM International and IAAPA to support the standardization of international guidelines that govern the development of amusement rides and attractions worldwide.

Quality That Lasts

Our products are designed to last even in the most challenging environments facing harsh elements like wind, UV, humidity, and chemicals. Our SilkTek™ fiberglass technology, made with a resin transfer moulding (RTM) process, ensures a smoother surface for a slicker sliding experience. Our inhouse centre of technical excellence tests our products to ensure what we provide is the most long lasting investment you can make.

Our quality doesn't end there, but extends to our steel manufacturing, theming, mechanical systems and more.

We stand by our products and our customers which is why we offer maintenance services too. Our Maintenance and Support department helps protect our customers' investments and achieve the maximum lifespan of your attractions for the best ROI.

AquaPlay 1050

Overview - Freefall, Master Blaster, Extreme River

Yas Waterworld, Abu Dhabi, UAE

Multi Slide Complex (Rattlers, Whizzard, and Speed Slide)

“Tell me to have you ever been to a water park that has changed your life? I’ll tell you to let me introduce you to Yas Waterworld the most exceptional adventure you will ever experience in Abu Dhabi. The rides themselves were enough to transform my life. As they opened my eyes to the excitement and adventure a side of me that was buried deep within me. Due to the fact, I wasn’t a person who would bear risks, but now that’s all changed. All thanks for the rides at Yas Waterworld.”

Wahab y.

"The place is amazing, fantastic, and wonderful. Everything there is perfect. Each ride was thrilling and fun"
Hala H.

AquaPlay 1750

Whizzard

Laguna Water Park, Dubai, UAE

Legoland, Dubai, UAE

WaveOz™

"Laguna Waterpark is where you go for pure, non-stop waterplay fun for everyone. I went with my five-year-old niece and her mother who were visiting, and I squealed with joy along with the child on the superb slides for little ones. The lazy river was excellent too! There are slides for adults, a wave for surfing, more water play areas for really little ones, food outlets and a beach. It's a perfect one-stop-shop that guarantees absolute fun for everyone!"

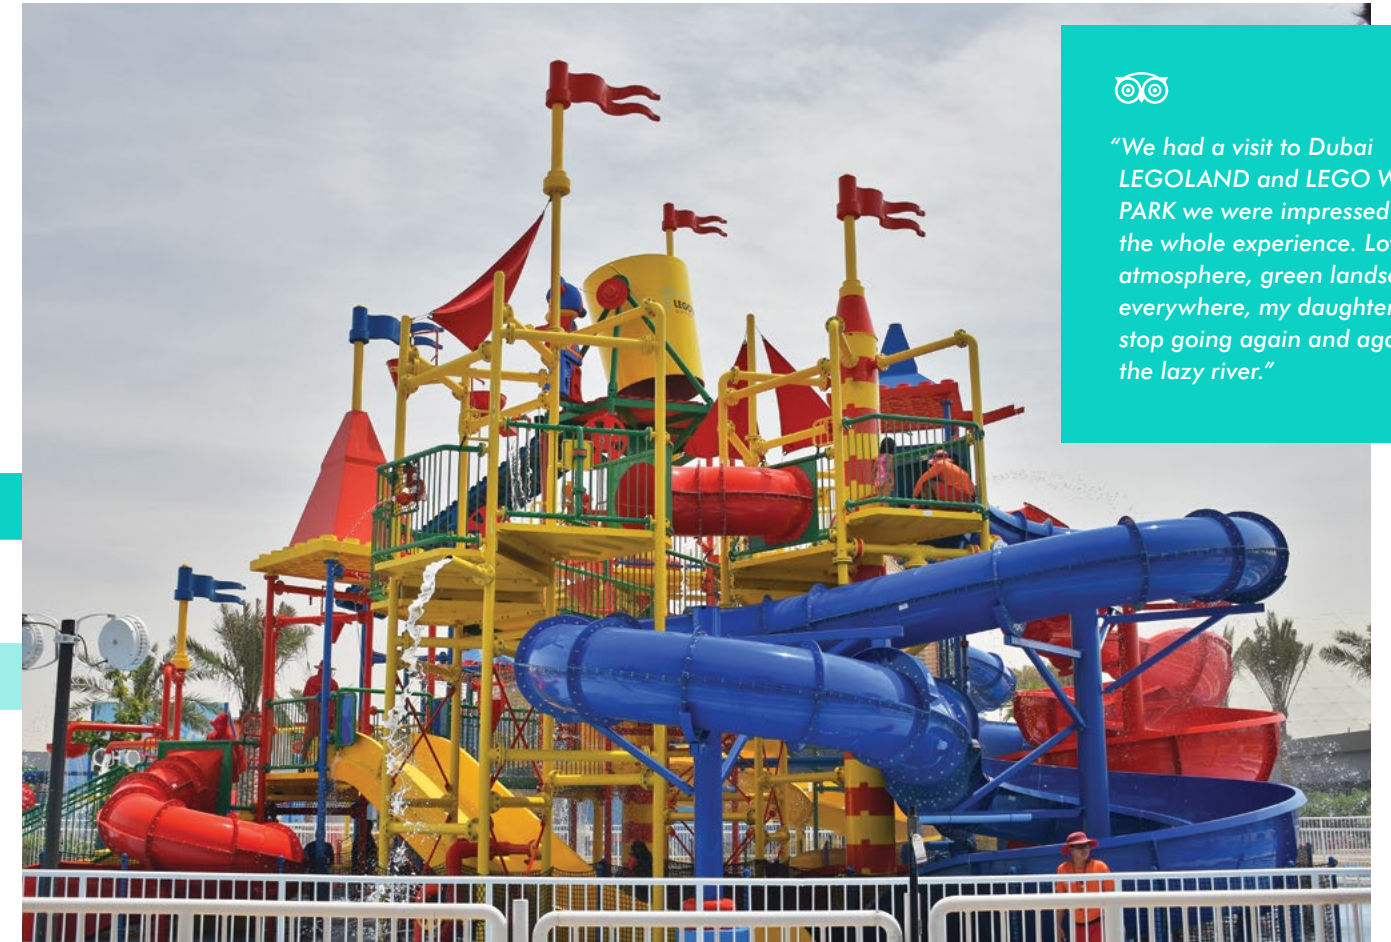

Lara M.

RainFortress 4

Slide Tower

RainFortress 5

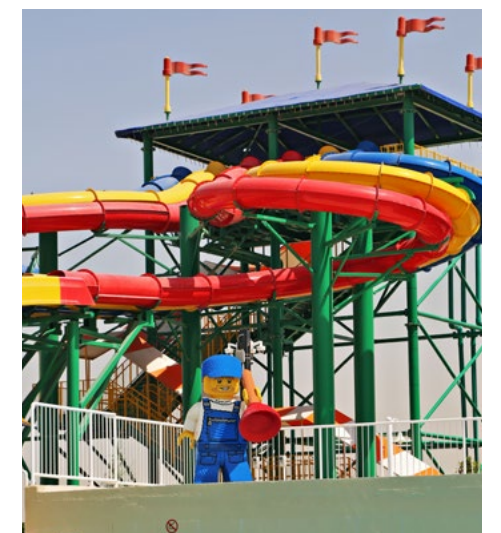

"We had a visit to Dubai LEGOLAND and LEGO WATER PARK we were impressed with the whole experience. Lovely atmosphere, green landscape everywhere, my daughter couldn't stop going again and again into the lazy river."

Adel S.

Whizzard & Super Bowl

Whizzard

Shankus Water Park & Resort, Gujarat, India

"The one water park I will go again and again. Just one hour drive from Ahmedabad. It is really very global in terms of cleanliness and water hygiene. Amazing rides. Safety standards are too high."
