The Final Touches

They are an integral component of your water park, the marquee attractions that drive your gate and sit front page on your web site. They're thrilling, family-friendly, and most importantly, safe.

When deciding on a new water slide, choosing a slide that complements your ride mix, meets your capacity needs, and fits within your allocated footprint is only the first part to creating a crowd-pleasing attraction. The next equally important step is choosing fiberglass colours, finishes, and effects and tower materials and theming to complete your slide's ride experience and visual impact.

FIBERGLASS

Don't underestimate the impact fiberglass can have, not only on your slide's appearance, but also on its ride experience. At WhiteWater, we offer you a range of colour and finish options to help you create water parks that stand out.

Industry-leading Quality

At WhiteWater, we look at innovation in the widest sense, not just in terms of new product development. We always endeavour to perfect processes and upgrade materials as part of our continuous improvement program.

This rigour of refinement is put into every aspect of our products, including quality. WhiteWater owns one of North America's leading composites manufacturers, FormaShape, and it is from their Canadian plant that we have established a Centre of Excellence. All our fiberglass is tested for the most extreme of conditions to prevent against peeling and colour fading.

It is from these tests that we develop our strict standards, which we then roll out to our global manufacturing plants to ensure consistency of results no matter where they may be located.

The Luxury of Choice

WhiteWater offers multiple fiberglass manufacturing methodologies to meet the needs of our clients and their parks. Be it Open Mould, Light Resin Transfer Moulding, or the emerging Reusable Vacuum Membrane Moulding technique, we have embraced fiberglass technology. By demonstrating consistency and diligence, WhiteWater can manufacture the world's leading fiberglass to exacting specifications through all three techniques.

The Smoothness of SilkTek™

WhiteWater's SilkTek™ fiberglass uses a Light Resin Transfer Moulded process to engineer the ultimate opaque or translucent fiberglass that is incredibly smooth on both sides and requires very little maintenance.

The Durability of Gel Coat

We have analyzed a range of gel coats to ensure that our already market-leading fiberglass remains ahead of the pack. Because our clients are located around the world in varying weather conditions, we evaluated different gel coats over a 12-week accelerated exposure testing period to assess colour fading due to weather, UV deterioration, and blistering from heat exposure.

The results? Our gel coat has far superior fading performance, outperforming the market-standard product by almost four times the colour longevity in our test period.

The World's Best Fiberglass

What does this mean for you and your park when you buy a water slide from WhiteWater? You will be buying the highest quality, safest, and most innovative fiberglass on the market. Our fiberglass finishes and effects will enhance your slide's physical thrills and visual wonderment, let's take a look.

Colours

WhiteWater’s extensive colour palette allows you to create a look and feel that’s unique to your park and synonymous with your brand.

A photo-worthy slide is a differentiator and marketing opportunity. Our designers are experts at creating exciting and unique patterns from our opaque and translucent colours to complement your theming, setting, and atmosphere.

Colour Palette

This is our core colour range, giving flexibility for endless themes and styles in bright and durable colours.

We work with you to carefully consider colour as part of your overall park design. Our designers are here to help you find the right colours and patterns for maximum impact.

RESORT NEUTRALS

Jungala at Vidanta Riviera Maya Resort, Mexico

H2OBX Waterpark, USA

RESORT BLUES AND GREENS

Tidal Cove at JW Marriott, USA

Finishes

In addition to a large colour spectrum to choose from, our fiberglass can also be transformed with AquaLucent, Thematic Veils, and Metallic Paint Finishes, each producing unique effects that enhance ride experience and curb appeal.

AquaLucent

Add surprise bursts of colour and light in an endless array of shapes and patterns to unveil the drops, twists, and turns that lie ahead in a slide path. Place rings, dashes, and dots at just the right locations to heighten the sense of speed and height to create visual and physical thrills.

WhiteWater’s innovative AquaLucent process produces smooth ride surfaces and lustrous and durable exteriors to meet our stringent standards for fiberglass.

HERE ARE OUR STANDARD AQUALUCENT DESIGNS:

POLKA DOTS

CONSISTENT STRIPES

GRADIENT THIN

GRADIENT WIDE

LASERS

WE CAN ALSO HELP YOU DESIGN YOUR OWN CUSTOM AQUALUCENT*:

CUSTOM DESIGNS AND ILLUSTRATIONS

Metallic Acrylic Paint Finish

Add a sleek metallic finish to your slides with our metallic acrylic paint finishes. Available in a range of metallic paint colours and on both RTM and OM fiberglass.

METALLIC ACRYLIC PAINT IS AVAILABLE IN THE FOLLOWING COLOURS AND MORE:

Thematic Veils

Go beyond colour by transforming your slide's appearance with fiberglass veils. Choose from an extensive catalogue of designs to add a patterned layer to your slide to complement your park's brand, theme, or narrative.

Veils can help set the scene for your attractions; choose menacing patterns to alert your guests to the thrilling ride that awaits them or pick a cheerful design to welcome families.

Available on our SilkTek™ close-moulded fiberglass on both the ride and non-ride side surfaces. Available on our open mould fiberglass on the non-ride surface only.

HERE ARE A FEW OF THE POTENTIAL VEIL DESIGNS AVAILABLE OR CHOOSE FROM OUR EXTENSIVE CATALOGUE:

Gold and Silver Metallic Paint

Effects

Slide effects also add to a water slide's ride experience by creating surprise squirts from a water jet, shining a spotlight on dark flumes, or establishing a mysterious atmosphere with carefully chosen music or sound effects.

Sound & Light Effects

Using your park's theming or vision as inspiration, WhiteWater can create a custom sound and light package to amplify your ride's slide path with multi-coloured LED lights and sound effects or music.

Water Effects

Keep riders on their toes with surprise water features such as misters, water curtains, and arching jets. Or have our talented team create a custom water feature to heighten your slide's ride experience.

DISPLAYS AND CONFIGURATIONS

TOWERS

Dotting your park's skyline, utilitarian slide towers often stand out in contrast to the carefully selected colours of your water slides, theming, and landscape.

Better known for their function than their form, towers are often overlooked as an opportunity to enhance the guest experience in a water park.

Materials & Finishes

Choosing the right slide tower materials and finishes for your park’s environment and climate can help extend the life of your tower while also creating a more enjoyable experience for your guests.

Concrete Infill

Our standard slide tower offering features stairs made of galvanized steel pans with concrete infill decks and steps.

Interlocking Decking

Interlocking Decking is lightweight, nonslip, woodgrain planking for stairs and decks. Easy to install, interlocking decking systems are virtually maintenance-free and stay cool to the touch for year-round comfort.

Fiberglass Grating

Fiberglass Grating is used on tower stairs and decks to create a completely non-corrosive, durable, and non-slip surface with the optional safety feature of a yellow strip on the leading edge of each step.

Composite Decking

Composite Decking can be used on stairs and decks to create a fade and stain-resistant surface. Available in a variety of colours, composite decking is highly resistant to rotting, cracking, and splintering.

DESIGNS AND OPTIONS

Tower Theming

WhiteWater can create aesthetic tower solutions to match your budget, environment, and footprint—from simple cladding to new organic forms, the possibilities are wide ranging.

Transform your towers into works of art which enhance your park's overall appearance.

SHAPES AND COLOURS

LET'S GET STARTED

We all know the importance of choosing the right slide for your park. In the quest to find the most thrilling, the family friendliest, or the first-of-its-kind, it's important not to overlook the details that can help your new attraction stand out from the crowd.

Our team of experts can help you craft a complete ride solution that looks at every aspect of a water slide and its tower to create a memorable, Instagram-worthy water slide that will drive your gate for years to come. Let's get started.

WHITEWATER®

EST. 1980

WhiteWater was born in 1980 with one clear purpose, to create places where families unite and make joyful lasting memories.

We achieve this by standing alongside our customers from concept to completion of award-winning attractions, from slides to water rides and everything in between. We aim to inspire our clients by unleashing our creativity to realize their ambitions; we craft solutions which make each park unique. We are dedicated to making products that operators can count on, because we understand the importance of reliability and efficiency on the bottom line.

As market leaders, we put our success down to our attitude, in all our years we've never once forgotten why we're here – to help parks solve problems, create immersive experiences, and delight guests all over the world.

We're here to create places where fun thrives.
