## Introduction

---

A WhiteWater invention, AquaCourse is a ground-breaking take on multi-level play structures that combines a patented close track harness safety system with a water-based ropes course. Guests are challenged to traverse between towers, along lily pad walks, and across a series of tricky and demanding bridges—all while safely harnessed in. Along the way, they'll encounter deluge showers, surprise geysers, and interactive water jets to keep them on their toes.

Designed with different zones for varying levels of difficulty and water saturation, AquaCourse's lower tracks are perfect for smaller kids, allowing them to feel safe, while higher tracks appeal to teens and adults who crave bigger thrills.

Winner of IAAPA's Brass Ring Award for best new product in 2012, we continue to innovate and perfect this award-winning attraction for new generations; making it an ideal attraction to diversify a park's water play mix.

# AquaCourse Interactive and Challenge Elements

AquaCourse features a mix of water-based interactives and physical challenge elements. The range of interactives allows guests on the tracks to spray and splash each other by pulling ropes, pushing buttons, and stepping on foot activated jets. They can also get splashed by guests waiting in the interactive queue line, who can pull ropes to activate showers and shoot water blasters at them.

The challenge elements add thrills and another layer of complexity to AquaCourse, by creating tricky and tough obstacles, such as beams, bumper crosswalks, and turbo stirrups for guests to cross.

**Over 20  
exciting  
elements**

## Interactive Elements

Deluge shower  
Surprise Geyser  
Rope Pull Shower  
Small Tipping Trough  
Foot Jet  
Water Gun  
Tipping Cone  
Periscope Gun  
Large Tipping Trough

## Challenge Elements

Lily Pad Walk  
Zig Zag Bumper Cross Walk  
Bumper Cross Walk  
Zig Zag Beam  
Islands Walk  
Single Beam  
Turbo Stirrups  
Inline Bumper Walk  
Family Deck  
Interactive Deck  
Trigger Beam

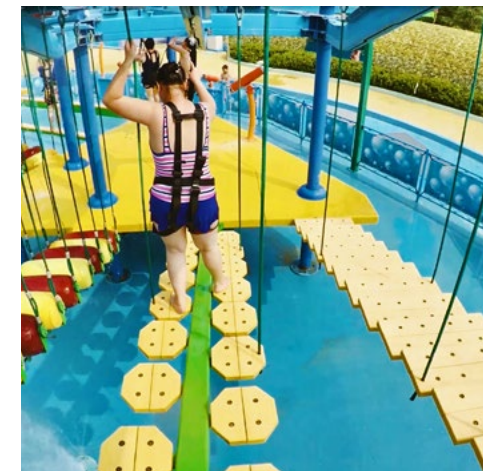

WATER GUN

SINGLE BEAM  
(with foot activated jet)

SURPRISE GEYSER

LILY PAD WALK

INLINE BUMPER WALK

## AquaCourse Models

AquaCourse is available in four models of varying sizes and configurations to meet the footprint and capacity needs of your water park. Each model features specially designed interactive zones for varying levels of challenge, thrill, and soak factor.

### DRY ZONE

Just outside of the Interactive Queue Zone, spectators and parents can keep dry while keeping an eye on participants as they explore the structure.

### INTERACTIVE QUEUE ZONE

Without traditional barriers, guests waiting in line can cool off with interactive handrails, tipping troughs and cones, and water blasters.

#### INNER INTERACTIVITY ZONE

Exclusive to the AC180, guests waiting in queue or simply looking to get in on the action can walk into the centre of the 'arena' to get sprayed with water and shoot water blasters at participants.

### SOAK ZONE

The heart of the action, this is the zone where guests, in harnesses, navigate across challenging obstacles, spray their fellow adventurers, and get soaked in return.

# We've Got You Covered

WhiteWater designs and manufacturers all of our interactive water play products in our North American facility in order to control and ensure their quality. Safety is paramount at WhiteWater, and the design of our interactive water play structures is no exception—using probes, walkthroughs are completed to identify, and if present, eliminate entrapment and pinch point on all structures.

Designed to meet the toughest aquatic environments, both indoor and out, every AquaCourse, interactive, and challenge element is carefully considered and constructed from the highest quality components.

What does this mean for you and your park when you buy any of our AquaCourse models, or any product, from WhiteWater? You will be buying the highest quality, safest, and most thrilling attractions on the market—attractions that we stand by with our WhiteWater warranty.

## A Rust Free Environment

Galvanized piping is finished with a premium coating system that keeps your AquaCourse looking brand new for years.

# WHITEWATER®

EST. 1980

WhiteWater was born in 1980 with one clear purpose, to create places where families unite and make joyful lasting memories.

We achieve this by standing alongside our customers from concept to completion of award-winning attractions, from slides to water rides and everything in between. We aim to inspire our clients by unleashing our creativity to realize their ambitions; we craft solutions which make each park unique. We are dedicated to making products that operators can count on, because we understand the importance of reliability and efficiency on the bottom line.

As market leaders, we put our success down to our attitude, in all our years we've never once forgotten why we're here – to help parks solve problems, create immersive experiences, and delight guests all over the world.

We're here to create places where fun thrives.
