

FLOWSURF™

The latest addition to the FlowRider quiver, unlike anything else in the product line, FlowSurf is the most efficient deep flow stationary wave system with quality and service you can trust.

Several years in the making, we created this wave to emulate the famous Waimea River Wave. Riders use a real surfboard to carve over a silky-smooth flow of water. And with an epic ride experience comes the highest standards of safety, durability, and efficiency.

★ UP TO 1 METER (3 FEET) WAVE

★ A RIVER WAVE SURFING EXPERIENCE WITH REAL SURFBOARDS

⚙️ LAUNCH AND RIDE AREA ARE SURROUNDED BY IMPACT RATED PADDED WALLS

⚙️ TOP-OF-THE-LINE STAINLESS STEEL PUMPS FOR LONGEVITY

💰 APPEALS TO TRUE SURFERS WITH THE EPIC EXPERIENCE OF RIDING AN ENDLESS WAVE

📢 SMOOTHEST WAVE ON THE MARKET

💰 LOW ENERGY CONSUMPTION

📢 CREATE A FUN DESTINATION THAT CREATES FANS AND POSITIVE ONLINE REVIEWS

★ FOR YOUR SURFER

With real surfboards in hand, surfers will enter from a side wall and will immediately be able to test their surfing skills on deep water for real wave turns, carves, and everything in between.

📢 FOR YOUR MARKETING

Advertise the smoothest wave on the market while creating a central hub for entertainment and food and beverage where guests can hang out, share photos to social, and wait for their turn.

⚙️ FOR YOUR OPERATORS

Built from FlowRider's industry-leading components, FlowSurf's adjustable wave speed and thickness deliver energy savings while adapting to rider ability.

💰 FOR YOUR BOTTOM LINE

Backed by FlowRider's world-class service, FlowSurf's low energy consumption and adjustable wave will save you money. There are no licensing or royalty fees involved either, so the money you make is all yours!

FOOTPRINT	TANK VOLUME	WEIGHT	POWER REQUIREMENTS
339 m ² (3,645 ft ²)	753,000 L (199,000 Gal)	775,000 kg (1,697,000 lbs)	460v 3 phase (Rated Power 345 kW)

**Operational cost is calculated by local electrical costs x kW/hour used*
