## What are you missing?

---

The pools are filled with water, the water slides are turned on, there is just one thing missing... Aquatic Play!

Since the 1990s, Aquatic Play has played an integral role in parks and resorts. Fun for both young and old, these multi-level water play structures create endless pathways for guests to explore while helping venues with their capacity management by absorbing crowds for a queue line free attraction.

With so many different structures how do you choose? Depending on what your goals are, this interactive guide can help you decide which Aquatic Play structure is right for your park.

# No Matter Your Level of Splash, Aquatic Play Delivers

Creating an unparalleled layer of engagement and interactivity, the Aquatic Play product line caters to every guest that comes through your gate. Whether you want to be drenched by the tipping bucket or sit and watch from the sidelines, we have the experience they are looking for.

..... For the parents just wanting to watch the kids play without getting too wet, this area is for them. Shallow so they can get their feet wet if they choose, this zone is all about observation.

..... Moving further into the structure, this area is the entrance to the structure where onlookers may be in reach of blasters and spraying water.

..... There is no other way to describe zone 3 than SOAK ZONE! In this area, you're a fair target for the tipping bucket and well into the wading pools where interactives, slides, and spraying features are splashing in every direction.

# Meet the Aquatic Play Structures

With our wide array of structure sizes, we have something for every park and every guest.

AquaPlay 1050 (Paradise Resort Gold Coast - Surfers Paradise, Australia)

# AquaPlay

As the original multi-level interactive water play structure, AquaPlay was created to make aquatic play more engaging. At first sight, the structure recreates that euphoric feeling of being a kid on a playground.

With a versatile range of sizes to fit any footprint, budget, and capacity requirement, our AquaPlay line delivers high play value with plenty of interactive play features, water sprays, and water slides and is often themed to create the most immersive themed aquatic environment. Need branded or theming? We do that, too.

Ready-to-Play AP750TB - Beach Theme

## Ready-to-Play

If you're looking for the AquaPlay line with the shortest lead time and fastest commissioning, this is your model. With three quick and easy steps, you simply pick one of three different themes, select your size, and then let our team get started on the manufacturing according to your site specifications.

### HIGH THRILL SLIDES

RainFortress 5 (Zoombezi Bay Waterpark at Columbus Zoo -Powel, USA)

# RainFortress

RainFortress comes in three models, each bigger than the last. Scalable in design, you can start with a smaller model and expand to a larger model when you decide to expand. Featuring a mix of kids' slides and more thrilling rides, plus over 100 water features, RainFortress offers hours of entertainment to the entire family.

FusionFortress 17 (OCT Playa Maya Water Park Tianjin - Tianjin, China)

## FusionFortress

Combining the interactivity of our AquaPlay multi-level water play structures with a wide range of our award-winning iconic water slides, from kids' to high-thrill, FusionFortress is a mini-water park in a compact footprint. With multiple levels of fun to explore, FusionFortress is an iconic cornerstone to your park or can stand alone as a viable starter water park with something for everyone, whether it be a dedicated kid's zone to high thrill water slides.

AquaForms 1450

# AquaForms

The most configurable product in our AquaPlay line, AquaForms can be designed in several shapes and sizes to create solutions for any footprint. Featuring accessible cause-and-effect interactives and a catalogue of interchangeable water features and spray effects, AquaForms' open decks create more play space while minimizing the amount of space needed on the pool level to reduce costs. AquaForms can be finished in several colourful translucent and custom patterns.

# AquaFortress

AquaFortress rewrites the script for AquaPlay. This product considers user experience in every sense from how designers use it, how it's installed, how it's operated, and of course, how it's enjoyed by guests. A bigger option perfect for water parks or hotels with more space, the AquaFortress builds off of the interactive fun offered by AquaForms with more slides and interactives to enjoy.

# Other Add-Ons to wow

## Fountain and light effects

Add programmable fountains, music, and/or light special effects to your RainFortress or FusionFortress for more entertainment value. Operators can choreograph the fountains on the structure to audio and/or lighting effects to bring the park alive after the sun sets.

## Theming

While all our interactive water play structures are available in standard colours or custom theme, WhiteWater's team of artists and designers can enhance any play structure or spray park with detailed hand-carved theming to stimulate the imagination.

Our in-house team of experts can adapt IP, local imagery, storyline, branding, or signage to transform your space into an immersive and unique play experience. This could be anything from a galaxy in outer space, the depths of a hidden rainforest, or historical elements from your region's heritage.

# CASE STUDIES

Overview

## Aqua Nick

📍 [Nickelodeon Hotel and Resort, Cancun, Mexico](#) [www.](#)

Just around the corner from Cancun Airport is Nickelodeon Hotel and Resorts Riviera Maya featuring the water park, Aqua Nick. Covering two thirds of the hotel's property, Aqua Nick is the largest theming project that WhiteWater has ever created.

Incorporating the intellectual property of Nickelodeon, the highlight of the water park is Bikini Bottom Beach where SpongeBob SquarePants and his crew takeover a RainFortress 5. A multi-level water playground with non-stop action, guests can walk through SpongeBob's iconic Pineapple house or crawl under Patrick's rock.

The custom designed RainFortress 5 features a first of its kind immersive experience taking the theming into a new element – the color of the water. Nickelodeon's iconic green 'slime' sprays out of the structure's tipping bucket and spray features showcasing the depth and level of theming that can be achieved if desired.

AquaSpray

## Morgan's Inspiration Island

📍 San Antonio, Texas, USA [www.](#)

In 2017, Morgan's Wonderland opened its Ultra-Accessible™ expansion, Morgan's Inspiration Island. Named one of TIME Magazine's 2018 "World's Greatest Places," the water park was specially designed so guests of all abilities could enjoy the attractions. The water, for example, is warmed slightly to allow those with muscular issues and every element of the water park is wheelchair accessible.

The multi-level play structures were also made to be more accessible with additional indicators added to signal when the tipping bucket would pour. Whirling signs act as visual cues for those with hearing difficulties and a custom alarm was made so guests on the autism spectrum are not bothered.

Many water park elements also have little wheels on them, which control the amount of water coming out of the water play features. If someone has limited physical issues, the intensity level can be lowered so they can enjoy it.

AquaForms

## Cook Creek Park

📍 Lone Tree, Colorado, USA [www.](#)

Standing the test of time, the AquaForms at Cook Creek shows that play is something that will never go out of style. The original structure was a community favorite, and to give it a new lease on life, the city decided in 2018 to upgrade the existing play structure to AquaForms.

The new AquaForms unit uses the existing structure's concrete but showcases a more modern look compared to its predecessor. Using durable automotive paint, the AquaForms structure has more gloss retention for bright, vibrant colors. The new structure also utilizes Polycarbonate guardrails enabling the use of translucent graphics for added style and design.

The flexibility of AquaForms to adjust to the unique site conditions means that WhiteWater can replace an older AquaPlay model or another company's structure without having to disrupt the foundation.

## Make a smart decision

No matter what AquaPlay structure you choose, your guests will feel right at home.

# WHITEWATER

EST. 1980

WhiteWater was born in 1980 with one clear purpose, to create places where families unite and make joyful lasting memories.

We achieve this by standing alongside our customers from concept to completion of award-winning attractions, from slides to water rides and everything in between. We aim to inspire our clients by unleashing our creativity to realize their ambitions; we craft solutions which make each park unique.

We are dedicated to making products that operators can count on, because we understand the importance of reliability and efficiency on the bottom line.

As market leaders, we put our success down to our attitude, in all our years we've never once forgotten why we're here – to help parks solve problems, create immersive experiences, and delight guests all over the world.

We're here to create places where fun thrives.
