## Introduction

Kids are the decision makers when it comes to choosing a water park—it's why this form of family-based attraction is so vital to your park. Providing the whole family with a place to play, one that keeps them engaged for hours, where parents can either join in or easily supervise from the sidelines, will keep guests of all ages happy and on-site longer. It can mean the difference between a single-visit ticket and a season pass.

Our team of experts can help you evaluate your ride mix and visitor demographics to determine if there are gaps in your offering and how to best address them. WhiteWater has a range of solutions to meet the needs of various age groups while taking into consideration your park's capacity and footprint requirements.

# Play at Its Best

## Leading the Industry

As the team that invented interactive water play, WhiteWater has entertained and engaged generations of families. A fundamental anchor attraction for any sized water park, our multi-level interactive play structures and spray parks can be found from municipal pools to iconic water parks all around the world.

## Diversity of Choice

Whether you're looking for an accessible splash pad for kids of differing abilities, a challenging ropes course to add a teen-oriented attraction, or an all-in-one starter water park product, we have an interactive water play solution that meets the needs of your market. The breadth of our product lines means that we have options to suit every price point, capacity requirement, footprint, and demographic.

## Custom Designs

Every detail of our interactive water play attractions is carefully considered with time spent on engineering to ensure manufacturing quality and accuracy; an important distinction, as each one of our installations is custom-engineered to meet local requirements, conditions, and geography. Add in custom theming to incorporate IP, branding, or a storyline and your attraction is completely one-of-a-kind.

# Features and Options

## Interactives

Each one of our interactive water play products features a variety of interactive elements—those fun, hands-on features that empower kids to play, not just with water, but with their fellow merrymakers.

Cause-and-effect interactives, water cannons, and surprise geysers increase the play value on all our structures. Robust and kid-approved, they have been carefully designed to ensure that they work through whatever punishment kids and the weather can throw at them.

Standard on AquaPlay, RainFortress, and FusionFortress.

## A complete range of interactive experiences

- ▶ Bubbler Jets
- ▶ Hose Jets
- ▶ Interactive Arching Jets
- ▶ Peacock Arching Jets
- ▶ Pipe Falls
- ▶ Pools and Falls
- ▶ Pull Ropes
- ▶ Single Arching Jet
- ▶ Spinning Tray
- ▶ Tipping Cone
- ▶ Tipping Trough
- ▶ Umbrella Jets
- ▶ Staccato Blaster (only applies for AP+)

Spinning Tray

Pull Ropes

Tipping Cone

Bubbler Jets

AquaPlay 1050 - Atlantis The Palm Resort

## Tipping Buckets

Our patented tipping bucket, with sound indicator, produces a huge splash footprint for an engaging and exciting experience, available on select AquaPlay models, RainFortress and FusionFortress. The familiar scene of the building anticipation as kids stand in the optimal splash zone waiting for the deluge of water to pour over them is a favourite in water parks the world over.

- AP150 – AP300 uses a 600L Tipping Bucket
- AP350 – AP1050T uses a 1200L Tipping Bucket
- AP1750 and RainFortresses use 1800L “RF” Bucket
- FusionFortresses use 3000L “FF” Tipping Bucket

RainFortress 5  
(Kalahari Resorts - Sandusky, OH)

Champagne Bowl (Hawaiian Falls Roanoke - Roanoke, USA)

FusionFortress 10 (Adventure Bay at OCT FABLAND - Xiangyang, China)

## Water Slides

The industry-leading and highest quality, safest and most innovative fiberglass water slides that are showcased on our slide towers are also available on all our interactive water play products.

With an extensive library of water slides to pull from, we've carefully chosen the right thrill level and ride experience for each of our multi-level play structures.

AquaPlay 1050 (Blue Parrot Waterpark - Aruba)

## Theming

All of our interactive water play structures are available in standard colours or custom theme. WhiteWater's team of artists and designers can enhance any play structure or spray park with detailed hand-carved theming to stimulate the imagination. Send your guests on an adventure through a tropical jungle or deep into a colourful ocean.

Our in-house team of experts can adapt IP, local imagery, storyline, branding, or signage to transform your space into an immersive and unique play experience.

RainFortress 5 (Calypso Waterpark - Limoges, Canada)

Theming (Cowabunga Bay Water Park - Draper, USA)

RainFortress 5 (LEGOLAND Malaysia - Johor, Malaysia)

AquaPlay 750 (Courtyard Anaheim by Marriott - Anaheim, USA)

## Play Surfaces

Our recommended play surface for all our interactive water play products is Life Floor. Created as an alternative to conventional surface coatings, Life Floor is a foam-rubber flooring system that delivers unparalleled safety, play value, and comfort. Kids are able to play freely without the fear of getting hurt due to Life Floor's impact absorption technology which is proven to significantly reduce slips and falls.

Offered in 30 colours, two textures, and a variety of thematic inlays, Life Floor's die-cut designs are available in a growing collection of shapes, including seashells, animal footprints, and flora. Custom designs are available upon request.

Available on and under multi-level play structures, pool decks, splash pads, zero-depth entries, and play features.

## Interactive Water Play Products

---

# AquaSpray

## Versatile for Any Venue

AquaSpray water activity elements are individual features which can be configured to create a dynamic splash pad or added around a multi-level play structure or lazy river for extra splash. These features are designed to be used in wet or dry parks and are very effective even under low water requirements.

Sunway Lagoon - Kuala Lumpur, Malaysia

Waldorf Astoria Ras Al Khaimah - Ras Al Khaimah, UAE

## A Place of Their Own

These interactive elements infuse water with fun and encourage hands-on exploration for the littlest visitors to your park. Each element, whether it be a spray nozzle, water gun, or spinning tray creates social interactions that keep kids engrossed in play together and parents easily supervising from the sidelines.

Sunway Lagoon - Kuala Lumpur, Malaysia

## Endless Choices

WhiteWater's extensive catalogue of options offers a myriad of colours, effects, and experiences for children of all ages. Jets, falls, buckets, and more inspire learning experiences for developing minds by demonstrating the movement and effects of water.

<b>Width</b> 1.6m (5.3ft)	<b>Water Flow Rate</b> 1.6l/s (25gpm)

## AquaSplash

The AquaSplash line complements the Interactive Water Play products in WhiteWater's portfolio, and helps create a well-rounded, multi-element splash pad that's suitable for kids of all ages—from toddlers to teens. With hundreds of elements that can be chosen from and combined to create a one-of-a-kind experience, we have options for every price point, capacity requirement, footprint, and demographic.

### Collections

Because of the breadth and variety of the AquaSplash product line, we have grouped similar elements together based on colour, theme, and function into nine Collections.

### Product Lines

The AquaSplash product lines include Add-ons, elements that can be added into any Collection; Stones & Spray Clusters, that encourage creative play; Ground Sprays, that can feature music and step-on sprays; Illuminators, that add dazzling colour effects to Ground Sprays; WaterWays, that encourage kids to discover the fun ways that water moves; and Discovery Stream, that fosters kids' imaginations with its modular stream packed with water weirs.

## Collections

### Prism

Packed with colourful elements, just like the daydreams of children, Prism captures the imagination with its bright yellows, reds, and greens with a multitude of shapes, animals, and plants in the theme.

### Twist & Spout

Futuristically-inspired, the Twist & Spout collection combines purples, blues, and silver with circular, curved elements that spin around their axes. This collection is perfectly suited to urban-themed water parks that benefit from its sophisticated, spherical look.

### Rockstar

Kids can let out their inner musician with this musically-inspired Collection. Rockstar includes a keyboard, trumpets, bells, and more. A few of this Collection's components, such as the Sound Spray and Maestro feature sound which help bring everything to life.

### Flora & Fauna

Think Mother Nature but enhanced with more fun and excitement! The Flora & Fauna Collection turns things we see around us daily—flowers, worms, butterflies, mushrooms, leaves, caterpillars, and more—into water sprouts and fountains.

### Safari

What can be more fun than embarking on an adventure to a safari? With a variety of palm trees, flowers, and animals like horses and giraffes, kids can unleash their inner wildlife explorer.

### High Seas

Sailing the high seas in a pirate ship is every kid's fantasy, and we've taken it as inspiration for this seafaring collection that encompasses sails, an octopus, compass, ship's wheel, anchors, periscope, and more.

### Grasslands by ehrling

There is nothing more beautiful than the wonders of nature, and our Grasslands by ehrling Collection emulates the majestic natural beauty that surrounds us. Grasslands takes a cue from the world around us and combines it with sprays, soakers, drops, and more.

### Shoreline by ehrling

An extension of the Grasslands Collection, the Shoreline friendly sea turtles and starfish make perfect companions for children and toddlers—encouraging them to work together to cover nozzles and make water spray higher.

### Cirque by ehrling

With the spirit of collaboration at its heart, Cirque by ehrling brings back memories of the circus, with bright, bold colours and whimsical, looping play features. Kids can work together to spin cannons and activate Bongos or shoot jets of water at their friends.

Cook Creek Park - Lone Tree, USA

# AquaForms

## Maximize Interactivity

Recognizing that there's more than one way to play, AquaForms embraces all of the ways in which children socialize, explore, and make believe. Using cause and effect interactives, AquaForms actively engages guests, increasing the amount of time they stay and play.

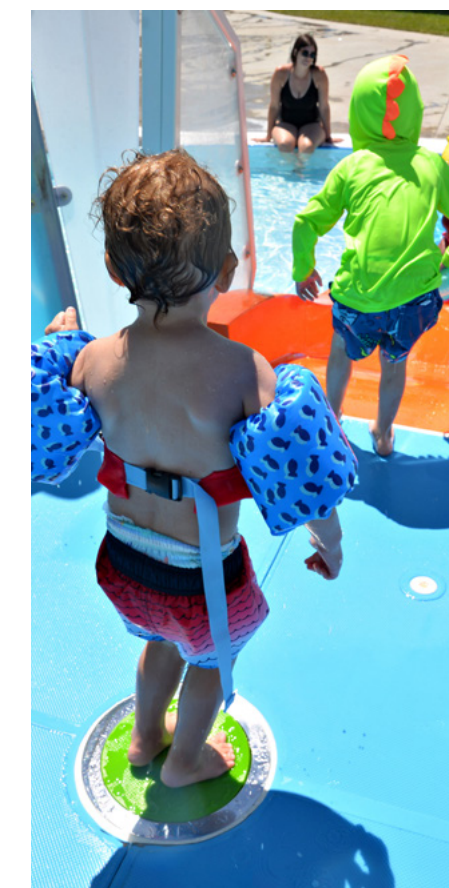

## Maximize Space

Balancing both style and substance, AquaForms provides more available play space while minimizing its footprint. Its outwardly flared structural system, not only creates a unique aesthetic, but also creates larger decks for playing with more room on the pool level for exploring.

## Maximize Options

The most configurable structure in our interactive water play category, AquaForms can be designed in a variety of models and designs. Choose from a library of decks heights, bridges and stairs, tipping buckets, or incorporate vibrant colours, textures, shapes, and patterns to create a one-of-a-kind play destination.

# AquaPlay+

## Our Newest AquaPlay Generation

Our newest and greatest AquaPlay option delivers a classic experience with updated aesthetics. These models include a new guardrail system that uses polycarbonate panels rather than steel pickets, cleaner aesthetic, and more opportunity to create a themed environment with graphics. Our newest models also introduce cause-and-effect staccato blasters for another interactive play element.

AP+ is available on all models from AP50 to AP1050T.

AquaPlay+ 150TB - Beach Theme

AquaPlay+ 1050 - Tropical Theme

# Ready-to-Play

## Choose One and Go!

Our standardized models and most cost-effective product option. All these models have the shortest lead time, fastest commissioning, and feature our highly interactive AquaPlay styling with classic theming.

**RTP** Look for this icon to see the 5 models available as Ready-to-Play and select from 3 different theme options.

AquaPlay 750 (Courtyard Anaheim by Marriott - Anaheim, USA)

# AquaPlay

## Setting the Standard

The original multi-level interactive play structure, AquaPlay helped define an industry. Designed to ignite imaginations and create endless adventures for kids of all ages, these play structures create hubs of fun where families can spend the day.

## Optimal Play Value

Chockfull of interactive features such as falls, valves, cranks, water cannons, and spray features, AquaPlay gives your guests the ability to pick and choose their fun. Cause and effect elements, surprise sprays, and water slides create a water playground for guests of all ages to explore and conquer.

## Completely Versatile

From small to enormous, we have an AquaPlay model to fit your park. Ultra versatile with over 10 available models and even more configurations, there is a model for every footprint, budget, and demographic.

AquaPlay structures offer an endless stream of possibilities when it comes to custom themes. With installations worldwide, WhiteWater has created many inspired themes to captivate the imagination.

AquaPlay 1050 (Aquaventure at Atlantis Bahamas - Paradise Island, Bahamas)

RainFortress 5 (Zoombezi Bay Waterpark at Columbus Zoo - Powell, USA)

## Hours of Water Play Fun

With hundreds of interactive elements, RainFortress is a sight to behold. This impressive structure offers non-stop family entertainment in a delightfully playful setting and encourages hours of water play and fun.

RainFortress 6 (NRH2O - North Richland Hills, USA)

RainFortress 5 (Island H2O Live! - Kissimmee, USA)

# RainFortress

## Compact Footprint

The next size up, after AquaPlay, our RainFortresses have even more playability with more platforms, water slides, and water features. Up your park's capacity and play value without giving up square footage as RainFortress builds up, reaching over 7 meters (24 feet) into the air.

## Models

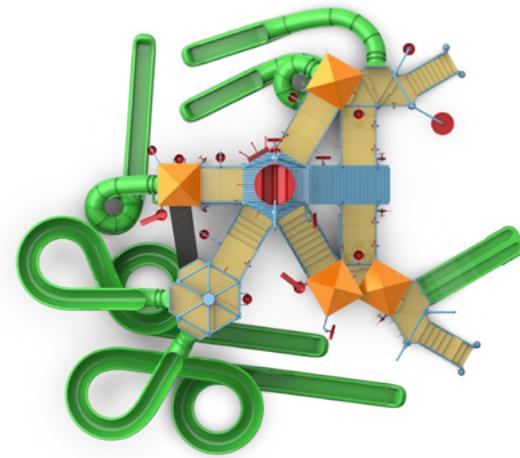

For water slide colour selection, please refer to our Water Slide & Tower Finishes guide.

FusionFortress 17 (OCT Playa Maya Water Park Tianjin - Tianjin, China)

## FusionFortress

### The World's First All-in-One Water Park

Combining the interactivity of an AquaPlay with a wide range of water slides, from kids' to high-thrill, FusionFortress is a mini-water park in a compact footprint. FusionFortress makes an iconic cornerstone to any park featuring some of WhiteWater's most legendary slides, two tipping buckets, and over 100 interactive features.

### Add a fountain for more splash!

Operators can choreograph water fountains on to audio and/or lighting effects to create a whole new level of entertainment. As the sun sets, the structure truly comes alive and dazzles guests as water dances along to preset music and/or light special effects.

Available on RainFortress 5 up to FusionFortress 17.

## AquaCourse

### A New Way to Water Play

AquaCourse is a harnessed multi-level play experience that allows each member of the family to choose their own level of adventure. Featuring four zones with varying levels of difficulty, thrill, and water saturation, guests traverse towers and bridges while safely harnessed in.

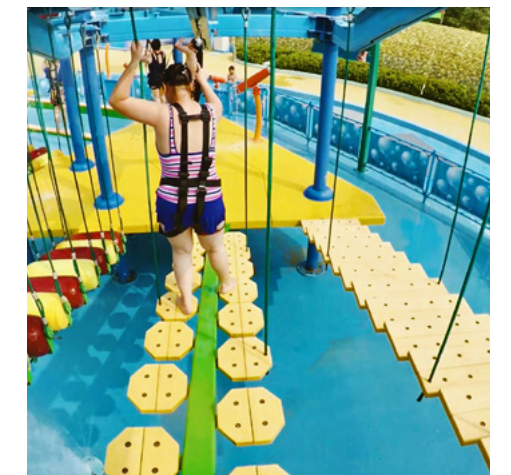

Water Gun

### 360 Degrees of Interactivity

Combining the excitement of Ropes Course with the interactivity of AquaPlay, AquaCourse delivers high challenge activities in a water-filled environment. Ultra interactive, even guests in queue lines can join in on the fun with perimeter interactives aimed at those in the course and vice versa.

OCT Playa Maya Water Park Wuhan - Wuhan, China

WhiteWater's water slides are made from industry-leading SilkTek fiberglass and can feature AquaLucent and translucent fiberglass to create truly memorable slide experiences.

- Deck surfaces are made of non-skid finishes that are gentle on the feet and easy to keep clean.
- Above the water line, structures are made entirely from galvanized and triple-coated steel that is available in over 200 colors.
- All our interactive elements have been kid-tested for play value to ensure that they're not only fun but can also stand up to the rigours of use and weather.
- The entire structure follows the most strict international standards, and tested in-house to provide only the safest experience.

What does this mean for you and your park when you buy any of our interactive water play products, or any product, from WhiteWater? You will be buying the highest quality, safest, and most thrilling attractions on the market—attractions that we stand by with our WhiteWater Warranty.

## Quality That Lasts

AquaPlay sets the standard for all aquatic play. With over a thousand play structures installed over the last two decades, this is an essential component of every park, a crowd pleaser with proven longevity and appeal.

WhiteWater designs and manufactures all of our interactive water play products in our North American facility in order to control and ensure their quality. Safety is paramount at WhiteWater, and the design of our interactive water play structures is no exception—using probes, walkthroughs are completed to identify, and if present, eliminate entrapment and pinch points on all structures.

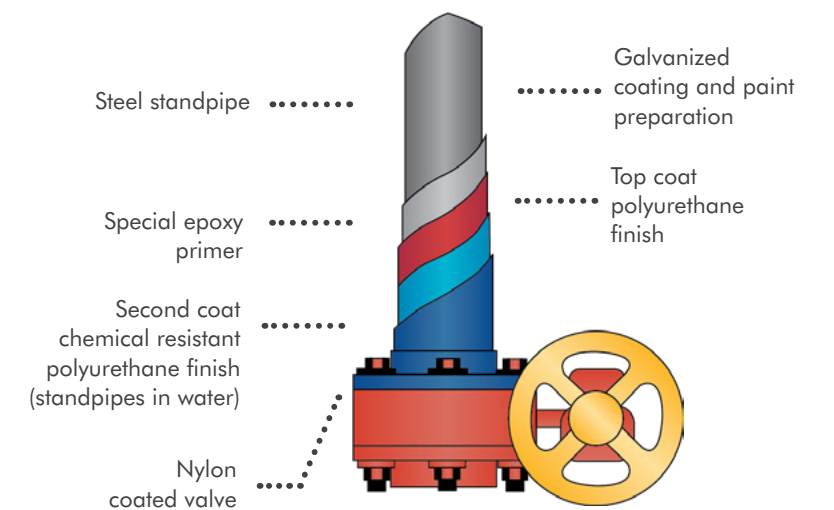

Designed to meet the toughest aquatic environments, both indoor and out, every structure and feature is carefully considered and constructed from the highest quality components.

### A Rust Free Environment

Stainless steel and galvanized piping are finished with a premium coating system that keeps your AquaPlay™ looking brand new for years.

# WHITEWATER

EST. 1980

WhiteWater was born in 1980 with one clear purpose, to create places where families unite and make joyful lasting memories.

We achieve this by standing alongside our customers from concept to completion of award-winning attractions, from slides to water rides and everything in between. We aim to inspire our clients by unleashing our creativity to realize their ambitions; we craft solutions which make each park unique. We are dedicated to making products that operators can count on, because we understand the importance of reliability and efficiency on the bottom line.

As market leaders, we put our success down to our attitude, in all our years we've never once forgotten why we're here – to help parks solve problems, create immersive experiences, and delight guests all over the world.

We're here to create places where fun thrives.
